

NetBotz® 500

**Performance Security and Environmental
Monitoring for Network Closets to Data Centers.**

Rack-mount monitoring for up
to 78 external sensors and up
to 4 cameras.

NetBotz Security and Environmental Monitoring

NetBotz is an active monitoring solution designed to protect against physical threats, environmental or human, that can cause disruption or downtime to IT infrastructure. This scalable suite of networked appliances, sensors, access controls and cameras is designed to safeguard environments ranging in size from network closets to data centers. The modular design allows for common sensors among the NetBotz appliances. Optional user-defined alerts can be sent in a variety of formats and are easily integrated into event escalation policies. For management of multiple NetBotz appliances, use InfraStruXure® Central. InfraStruXure Central with Surveillance collects, organizes and distributes critical alerts while enabling a single view of multiple cameras, rapid search and retrieval of video and 'tagging' of important video clips.

NetBotz 500 Features

The NetBotz 500 offers premium security and environmental monitoring over the network. The NetBotz 500 is capable of video surveillance and monitoring to record any human activity. It provides temperature, humidity, door contact, dry contact, 0-5V, 4-20mA, vibration, smoke, 2 way audio monitoring, spot leak, rope leak and alarm beacon monitoring. The NetBotz 500's additional features include integration with InfraStruXure Central and user-defined alerts making the NetBotz 500 the perfect unit to protect your IT assets from security and environmental threats. The NetBotz 500 can be used in Network Closets to Data Centers, but it is commonly installed in medium and large Data Centers.

- > Environmental monitoring expands from 6 on appliance APC universal sensors ports up to 78 through pod-based expansion
- > Compatible with full-motion video cameras through camera pods, select Pelco IP cameras and CCTV cameras
- > Adjustable alert thresholds
- > Integrates with InfraStruXure Central
